Workshop

MASTERING VIRTUAL EVENTS

Connect, inspire and lead your teams in virtual environments.

🕐 1 Day   💻 Delivery: Online |||||| Product Code: MVE

✔ *CEO & Directors*   ✔ *Business Manager*   ✔ *HR & People Development Experts*

DESCRIPTION

Are you ready to leverage virtual environments like Cisco WebEx Teams, Zoom, MS Teams to produce the highest impact possible? Do you want to enable an open and engaging experience for participants, while also creating effective results and outcomes?

The Latin word for easy is *facilis*. Consider the essence of facilitation as 'the act of making something easier.' Everything is easier if people enjoy doing it!

Facilitating and executing virtual events requires a fundamentally different approach to live events. We will coach you through our 7 principles of virtual facilitation providing you the tools to plan and execute brilliantly.

As Viktor E. Frankl said: *"When we are no longer able to change a situation, we are challenged to change ourselves."*

TAKE AWAYS

Eliminate "Virtual Meeting Fatigue." Learn how to grab attention and hold it by creating real engagement.

Instead of the typical "Information Push", learn how to engage your audience to unleash their creativity, execute work in the meeting, and create results during your virtual sessions.

CONTENT OVERVIEW

This seminar is delivered in 4 phases conducted over several days. Some sessions can be combined together on the same day. We highly recommend executing all phases within a few days to one-week time frame although the Connect phase may occur well in advance of the others.

CONNECT (90min)

In the Connect Phase, each participants goals and purpose for the workshop become clear. On what specific skills or new abilities does each person want to work? We organize participants with common goals into learning teams and decide on which technologies, collaboration tools we will leverage for the event.

ORIENTATE (120min)

This is the "Learning Phase" of the event where participants explore concepts to make virtual events more fun, fluid, and effective. We introduce you to our "7 ACES" Canvas for effective presentations covering how to better plan, present, collaborate, and create content for more effective virtual events.

CREATE (120min)
May be conducted same day as ORIENTATE

Participants apply what they learned previously creating or modifying drafts for their own virtual events.

IMPLEMENT (120min)
Time may vary depending on audience – this should be conduct 1-5 days after Create

Participants demonstrate their new virtual delivery skills to the group and receiving coaching and feedback from both our experts as well as their learning peers.

METHODS AND PHILOSOPHY

The Global Pandemic has forced us to work in ways we didn't expect. We understand how challenging virtual environments can be. In this seminar we bring together our decades of experience in both live and virtual environments summarized in our *THE 7 ACES Principle*s to show you how to combine planning, dialogic principles, and engaging strategies to make your virtual events both stimulating and impactful.

„It was a lot of fun to explore this magic with Triangility.."
(Kristina Appelt, Cisco Systems)
